Let Me Go

Kaskade

When I looked at myself, I said "what the hell"
And I thought you were gone, but I knew you were too good
And I said to myself "let me go"
And I said to myself "let me go"
Cause you're burning a bridge in the field that I sleep in
Working a feeling I know I cant keep in
I'm over it
Let me go
Let me go
You were looking at me like you knew I was weak
But the harder I tried, the more I let you win
And I said to myself "let me go"
And I said to myself "let me go"
Cause you're burning a bridge in the field that I sleep in
Working a feeling I know I cant keep in
I'm over it
And I'm over it
Let me go

Let me go
Let me go
Let me go
Cause I feel like a fool when I walk through your fire
Need you to bruise cause I'm sick and I'm tired
Do you hear me now
Do you hear me now
Do you hear me now
Let me go
Do you hear me now
Let me go
Do you hear me now
Let me go
Do you hear me now
Let me go
Do you hear me now
Let me go
Let me go
