Unexpected Lovers

La Bouche

We were unexpected lovers
Not just ordinary lovers
Sharing unexpected love
Nights true love, true loveHow can there be no love
No feelings of passion to
The way we were dancing love
How could it be untrueWe danced the night together
Until the morning light
Baby, do you remember
The music was in our eyesWe were unexpected lovers
Not just ordinary lovers
Sharing unexpected love
Nights true love, true loveOn that enchanted evening
A lovers romantic night
The moon and stars were shining
The sea was glowing brightWe spent the night together
Until the morning light
Baby, do you remember
The music was in our eyesWe were unexpected lovers
Not just ordinary lovers
Sharing unexpected love
Nights true love, true loveLa la la la la la la
La la la la la la la
La la la la la la la
True love, true loveLa la la la la la la
La la la la la la la
La la la la la la la
True love, true love
