Verse 1

I wake up with the sun on my face in that NY state
But only quick and for a moment, see Iâ€™m on my way
Another show another plane / Now Iâ€™m on my game
With Ambition like super star â€œOh that fameâ€•
I got a flower that I picked and it says your name
What a beautiful specimen see Iâ€™m glad you came
For my family itâ€™s true yes I write all day
As soon as I awake constant with yes word play
Pillow talk in the dark / Look what can I say
Itâ€™s a Dream come true / I got so many dreams
Carpe diem when Iâ€™m gone yes I cross my T
Through school I was inspired by a positive environment
A brother that protected my neck like he was Iron Man
Space traveling Earth to the Moon then back again
Born and raised with Compassion in my heart
Archetype like cupid from the start

Chorus

Letâ€™s talk about that real life / Real life
Letâ€™s talk about that real life / Real life
Iâ€™ll listen to you all day all night
Letâ€™s talk about that rea life / Real life
Letâ€™s talk about that real life / Real life
Iâ€™ll listen to you all day and all night

Verse 2

Donâ€™t forget me see the feeling is never gone
I wrote you notes and poems and songs
Emotions so strong
You my shape shifter / Animal like
On a journey feeling good no matter the vice
We donâ€™t walk see we float like stars in the sky
The combination of every nation
A piece of the pie
To feed a starving child Iâ€™d climb to the highest mountain
Iâ€™ll reach deep into your soul
They call it Astrophysical touch like Midas
Clutch is the tightest / hold on to me softly
Whisper in my ear all the stories of your life
If itâ€™s stress fear and doubt we can work it out tonight
If its monetary conversations, itâ€™s not worth my time
Letâ€™s invest in each other 100 % aligned
If itâ€™s peace that weâ€™re asking for
Then peace is what weâ€™ll get
The master piece of the story Is accept
Peace

Chorus

Letâ€™s talk about that real life / Real life
Letâ€™s talk about that real life / Real life
