

# Simple

## Khalil

[Verse 1]

Never know what we might find  
Is why we're looking  
Lately I'm always on my own  
Cause that's just how it's been  
Who will find a place in the heart  
Oh, nobody wants to let me in  
Right up again  
But so proudly to know where I've been, tonight  
But you don't know why  
Bet it never gets to you  
Rather go in my first mind  
I think about what I shouldn't do, shouldn't do [Chorus]  
So don't waste no time  
I never said this was it no  
Can't run from myself  
Never thought I'd need help  
Baby what I feel, what I feel  
Ooh  
I wish it was simple, oh noo, simple  
I wish it was simple, simple, nooo [Verse 2]  
Nowhere for me to hide  
No one that understood what I feel inside  
Took all of my pride I guess it's why  
Never made up my mind  
Who will find a place in the heart, ooh  
But the way I felt I held it in, never again  
You probably to now where I've been tonight  
Bet you don't know why, bet it never gets to you  
I would rather go in my first mind  
To think about what I shouldn't do [Chorus]  
So don't waste no time  
I never said this was it no  
Can't run from myself  
Never thought I'd need help  
Baby but I do, but I do  
I wish this was simple, ooh noo, simple  
I wish this was simple ooh simple nooo  
I wish it was simple, ooh, simple

I wish it was simple, simple ooh
