Victim

Trapt

Let me play
I've been dying to let you win
It's all I wanna be
So won't you take if from me?
I wonder
Why the less I get the more I give?
It's all I wanna be
So won't you take if from me
I want your eyes
I want your eyes on me
I want your eyes
I want your eyes on me
I want your eyes
I want your eyes to see
I want someone to notice me
I wanna be your new victim
I wanna be your new victim
No regrets
Even if it's all I get
It's all I wanna be
So won't you take it from me?
It still hurts
It's never easy to forget

Do I wanna be?
Well, you never asked me
I want your eyes
I want your eyes on me
I want your eyes
I want your eyes on me
I want your eyes
I want your eyes to see
I want you to notice me
I wanna be your new victim
I wanna be your new victim
I'm right here, I'm right here
I'm right here, I'm right here
I'm right here, I'm right here
I'm right here, I'm right here

I'm right here
So come and get me
So come and get me
I wanna be your new victim
I wanna be your new victim
I wanna be your new victim
I wanna be your new victim
