Overture In E Minor

Grim Skunk

People in my face
Understand I need my place
You take, use and abuse...
Never give nothing in return
I think you like to burn
I do as I must
I swallow shit, I don't fuss,
Don't think, don't care,
Just sit there and act unaware
Of what's been going on
It's not my fault you're fucked up
I feel like you're laughing at me
It's as if you don't give a shit
If that's the way things will be
Then you will see
One day if you ever need help
And you ask me
I'll close the door in your face
And say "goodbye, asshole..."
