

# Wheels Of Fire

## Manowar

Since the dawn of time  
I've rolled across the earth  
Spinning in the dust  
Long before your birth  
Eating tar and gasoline  
Every light I see is green  
Open pipes, my machine's  
Triple plated chrome  
Spirit of the wheel  
Wheels of fire burn the night  
Ride across the sky  
Wheels of fire burning bright  
We live to ride  
Motors running  
Now you're gonna learn  
Waiting on the line  
Make your tires burn  
Faster, faster, faster, faster  
Speeding always kills  
Nothing else takes us  
To get these thrills  
Spirit of the wheel  
Wheels of fire burn the night  
Ride across the sky  
Wheels of fire burning bright  
We live to ride  
oh Blood and thunder on the road  
My heart is pounding  
My blood's Nitrolycerin  
I'm fire  
Burning, burning, burning, burning  
Ready to explode  
Don't want nothing left of me  
To scrape off the road  
Spirit of the wheel  
Wheels of fire burn the night  
Ride across the sky  
Wheels of fire burning bright  
We live to ride  
Clouds of smoke  
Tires screaming  
Fire in my hair  
Blown into a thousand pieces  
Scattered everywhere  
Fast, burn, burning, faster

Wanna take a ride  
Spirit of the wheel  
Wheels of fire ride  
Spirit of the wheelWheels of fire burn the night  
Ride across the sky  
Wheels of fire burning bright  
We live to ride  
Wheels of fire burn the night  
Ride across the sky  
Wheels of fire burning bright  
We live to ride
