Yesterday (insane)

Sugarcult

yesterday we went insane
oh my god, i forgot my name
a nervous bitch, that's all i am
i screen my calls because i can
you picked me up and we spun round and round like before
i lost my patience but i found it on the floor
i'm trying to be someone else today
i'm fooling everyone but me this way
all choked up because you're here
words like glue stuck in my ears

you picked me up and we spun round and round like before
i lost my patience but i found it on the floor
i'm trying to be someone else today, ohh
i'm fooling everyone but me this way, ohh
wake up, don't wait up, don't wake up, i'm not for sale
wake up, don't wait up, don't wake up, i'm not for sale
i'm trying to be someone else today, ohh
i'm fooling everyone but me this way, ohh
i'm trying to be someone else today, ohh
i'm fooling everyone but me this way, ohh
