

# Because of Him

## Death In June

Because of him  
This world has hope again  
Because of him  
This world has got a friend  
A friend that will eradicate  
All life's false humanity  
Helping one race, one creed  
To meet their need  
So that all may see  
That it's all so wonderful to care  
To love, to cull, to share  
Oh, let us start today  
To live and die the same way...
