Socialite

T.S.O.L.

Suffer my last days
Do I really gotta talk aloud?
Smiling between beats
you know you really hurt me nowyou know I wanna please you
and socialize
you know I wanna see you
you socialiteLook at the first man
you ever really cared about
with someone you can't stand
you know you've got to get him outyou know I wanna please you
and socialize
you know I wanna see you
you socialiteSuffer the last stand
And light another cigarette
Laughing beneath me
You know you just got what you getyou know I wanna please you
and socialize
you know I wanna see you
you socialite
