

# Made to Be Broken

## Information Society

Never had to tell a lie  
Never had to say goodbye  
It was only you and I  
ThenMemories will have to do  
They will take the place of you  
Can't you tell me what is true  
WhenWords are lies the day they're spoken  
Love's a lifetime's only token  
Words are lies the day they're spoken  
Promises are made to be brokenLife is always compromise  
Ties that bind are a bind that ties  
All I had was your two eyes  
ThenNever had to tell a lie  
Never had to say goodbye  
It was only you and I  
ThenWords are lies the day they're spoken  
Love's a lifetime's only token  
Words are lies the day they're spoken  
Promises are made to be broken  
They're made to be brokenWords are lies the day they're spoken  
Love's a lifetime's only token  
Words are lies the day they're spoken  
Promises are made to be brokenWords are lies the day they're spoken  
Love's a lifetime's only token  
Words are lies the day they're spoken  
Promises are made to be broken  
They're made to be broken
