

# Faraway Voice

[Katie Melua](#)

Faraway voice  
We can hear you, voice  
What's it like to be heard?  
But from you not a word Are you over those hills?  
Do you still hum the old melodies?  
Do you wish people listened  
Over here with me? Faraway voice  
What I would give, give to hear that voice  
What's it like to breathe?  
My ears deceive me, voice And I will walk with you  
On a summer's day  
And I will talk to you  
Though you're faraway  
And we'll sing through the years Are you over those hills?  
Do you still hum the old melodies?  
Do you wish people listened?  
Over here with me  
Over here with me  
Over here with me
