Not Soon Forgotten

Spoken

You were more than a conversation
More than a passing of the time
You will not soon be forgotten
Or fade away in timeEvery time I see Your face
I see the future in Your eyes
Every time I take a step
I am closer to surrenderNot soon forgottenI never will forget You
I'll never face the night alone
You're the reason my heart beats true
And it gets stronger with timeThe story of Your life has
And will stand through the tests
You will not soon be forgotten
Your love has changed my lifeEvery time I see Your face
I see the future in Your eyes
Every time I take a step
I am closer to surrenderNot soon forgotten
Your story is
Not soon forgotten
You have changed myNot soon forgotten
Your story is
Not soon forgotten
You have changed my lifeAnd every time I see Your face
And every time I see Your face
Every time I take a step
Every time I take a step
I see my future living in me
