

Life Is Beautiful

Little & Ashley

Ashley:

Sun exploding into dawn

Shadow sailing night is goneBorn at sunrise naked light

We are dolphins taking flight

Nothing needed nothing planned

Four leaf clover in my handAshley and Little:Life is beautiful when I'm with you

Life's beautiful when I'm with youAshley:Silver highways roll awayAshley and Little:Sometimes I feel so

heavy but not todayAshley:We are racing empty skies with all our friends

All our friends are here open windows in my mindAshley and Little:But what we need is what we findLife is

beautiful when I'm with you

Life's beautiful when I'm with youLife is beautiful when I'm with you

Life's beautiful when I'm with youWe are eagles floating high

We are weathers flying high

We'll fly so high

We'll fly today
