Mouth

Machine Gun Fellatio

She is a financier
Employed me for a year
I clean her office shine her chandelierI'm risking my career
I took us for a beer
I'm wondering where do we go from hereShe held me in her hands while I kissed her mouth
She held me in her hands while I kissed her mouth
She held me in her hands while I kissed her mouth
She held me in her hands
While I kissed her mouthNow I've got the fear
Her husband works near here
He's won awards for hitman of the yearBut I won't disappear
Coz I'm a pioneer
And when it comes to love she's a new frontierShe held me in her hands while I kissed her mouth
She held me in her hands while I kissed her mouth
She held me in her hands while I kissed her mouth
She held me in her hands
While I kissed her (while I) while I kissed her
While I kissed her (while I) while I kissed her mouthShe held me in her hands while I kissed her mouth
She held me in her hands while I kissed her mouth
She held me in her hands while I kissed her mouth
She held me in her hands
While I kissed her (while I) while I kissed her
While I kissed her (while I) while I kissed her mouth
