

# Your Own You Own

## Pigface

for 23 years we've told you to beware  
to be aware  
before awake  
your freedoms are being eroded [x2]  
your needs blocked [x2]  
your freedoms are being eroded  
your needs blocked  
your sexuality legislated  
your dreams your right to dreams, stolen [stolen! stolen! stolen! stolen!]  
you are being criminalized  
you are being reposeded  
your being digitized for ease ov location  
your breath thee breath ov youth is being polluted [provocation! [x4]]  
your own you own  
your very own  
your own you own  
your brains are being polluted, poisoned, and fragmented by fear  
not your fear [x3]  
your own you own [x10]  
you only run free  
as ov this day  
you do not have the right to socialize  
your own you own [i lost count, i'd say 30]  
or criticise, or analyse, or fantasise, or politicise, or publisice  
or subsidise, or visualise, or conceptualise, or realise anything!
