Don't Walk Alone

Bob Evans

He's the number one man in his community
He's got credibility and folks all know his name
Running round the clock he's working for the family
Starting up a dynasty down in historyBut all I know for sure is how love can grow
So don't walk alone
Don't walk aloneStarting up at eight checking that the factory
Is making lots of money he's got so much to lose
Going through the books working up an inventory
Dotting I's and crossing T's for his well-oiled machineBut all I know for sure is how love can grow
So don't walk alone
Don't walk alone
Cos all I know for sure is how love can grow
So don't walk alone
Don't walk aloneNever breaks the rules defying the economy
He's buying lots of property to mark his territory
Still he finds time to pop in to the P & C
Chair the whole committee and drink a cup of teaBut all I know for sure is how love can grow
So don't walk alone
Don't walk alone
Cos all I know for sure is how love can grow
So don't walk alone
Don't walk aloneBut lying awake at night something just don't feel right
It's like he's let somebody down
He can't figure it out he's done everything right
Still he's let somebody down
When he leaves in the morning please don't give up on him
He'll try not to let you downAll I know for sure is our love can grow
So don't walk alone
Don't walk alone
All I know for sure is our love can grow
Don't walk alone
Don't walk aloneOh, don't walk alone!
Yeah!
Oh, don't walk alone!
