Live Forever

Kym Marsh

I see you hurting baby
what can I do to easy your mind
there's nothin left here baby
nothin left for us to find
but I hope that someday
you will find that someone
you can stay with until the end
and u always be with me in my imagination
1 last look b4 you roll out from the station
say you'll always be my friend
at least let us pretend
that this is not the end
its alright
we'll live forever here tonight
the train is leaving baby
and I'm gona miss u so
no point in griefing baby
its time to let go
and I know that someday
you will find that someone
who can stay with until the end

and u always be with me in my imagination
1 last look b4 you ..roll out from the station
say you'll always be my friend
at least let us pretend
that this is not the end
its alright
we'll live forever here tonight
and maybe you'll see me again
in this life
sum far away country
sum beautiful night
just look for me there
that's where I'm gonna be
where ill be
and u always be with me in my imagination
1 last look b4 you ..roll out from the station
say you'll always be my friend

at least let us pretend
that this is not the end
its alright
we'll live forever here tonight
