

W.P.I.M.P.

Lil' Kim

Good evening ladies and gentlemen
I am here live
Welcome to W.P.I.M.P See, y'all don't know what it take
I'm talking about
It's hard enough to get in the industry
How the fuck do you get in the industry, and then stay there Every time you come out, you got some more hot
shit
Doing some more shit that bitches round the country go
That's what the fuck I meant to do
That's, living legendship You just livin', [Incomprehensible]
But if you don't watch your mouth
Somebody might take care of that apart too
