Scotty

I'm startin' to see spaceships on Bankhead
Scotty's callin' me, I'm in the zone
(I've gotta see my doctor)
Scotty's callin' me, I'm in the zone
(Scotty baby, I wanna fly)
Scotty's callin' me
(Mornin', noon and night)
I'm geeked up, geeked up, geeked up, geeked up
I'm geeked up, geeked up, geeked up, geeked up
I'm geeked up and I can't see
And all the walls keep lookin' at me
I tell myself there's nothin' wrong
But I can't stop grittin' my teeth
I can't sleep, I can't eat
I just geek, I just geek
And I know I can't take one
So why not three? Shake it deep
I can't help the way I feel
When I geek, I keep it real
In the hood I keep my steel
Try to blow my eye, you will get killed
'Cause it's real Bankhead, real Fabo
Broad daylight, don't keep shit low
Roll my blunt right in front of po po
Fuck them hoes, they can blame it on the dro
I'm in the zone
(I've gotta see my doctor)
Scotty's callin' me, I'm in the zone
(Scotty baby, I wanna fly)
Scotty's callin' me
(Mornin', noon and night)
I'm geeked up, geeked up, geeked up, geeked up
I'm geeked up, geeked up, geeked up, geeked up
Star Trek, Star Trek
Scotty don't wanna give a star back
I'm in the zone and I bought me a star gack
And I really geeked up, that's a star fact
I'm startin' to see spaceships on Bankhead
I roll with gangsters, pill poppers and dank heads

I got partners like word
Lil? boom buddy, I?m famous
I got sisters like gas man
Chocolate porches, they dangerous
I fly like blaze when I'm burnin' purp
Real potter heads, the burnin' hurt
Geek music I'm earnin' turf
While your football's soft like nerf
I'm in the zone
(I've gotta see my doctor)
Scotty's callin' me, I'm in the zone
(Scotty baby, I wanna fly)
Scotty's callin' me
(Mornin', noon and night)
I'm geeked up, geeked up, geeked up, geeked up
I'm geeked up, geeked up, geeked up, geeked up
I'm geeked up
I can't make it on my own
I'm geeked up
I wish this haters leave me alone
Help me, help me, help me, help me
(I just wanna be free, yeah)
Help me, help me, help me, help me
(It done took control of me)
Help me, help me, help me, help me
Help me, help me, help me, help me
Up in another one of those
Slick B on the track
Star Trek, Star Trek
Scotty don't wanna give a star back
[Incomprehensible]Help me, help me, help me, help me
Help me, help me, help me, help me
Geeked up, geeked up, geeked up, geeked up
I?m geeked up, geeked up, geeked up, geeked up
