

Flip the Script

Pixel

Yeah, uh huh, yeah
Prima J
Yeah, uh huh, yeah
Yesterday told myself that I would do it alone
Don't never let nobody mess up my flow
I'm good with me
Not sayin' love ain't nothin' I ain't felt before
Now I'm bugging waiting here on your call
No, it couldn't be
This is where your girl start acting crazy
This is what you hear on the radio
This is why I'm stressin', creepin', stalking
Steady checkin' who you talkin' to, I really didn't get it before
But you flip the script look what you did to me
Flip the script, baby you killin' me
Flip the script
And I'll never be the same again, yeah, yeah
'Cuz you flip my script, look what you did to me
Flip the script, baby you killin' me
Flip the script
And I'll never be the same again, yeah, yeah
This ain't me
Damn you got me going outta control
I can't believe I'm really one of those hoes
No, it couldn't be
And no way
Could I be really catching feelings, oh no
It's like I can't imagine being solo
Now I'm good with me
This is where your girl start acting crazy
This is what you hear on the radio
This is why I'm stressin', creepin', stalking
Steady checkin' who you talkin' to, I really didn't get it before
But you flip the script look what you did to me
Flip the script, baby you killin' me
Flip the script
And I'll never be the same again, yeah, yeah
'Cuz you flip my script, look what you did to me
Flip the script, baby you killin' me

Flip the script
And I'll never be the same again, yeah, yeah
I said I never say never
But you got me flippin', flippin' up
Oh baby, why'd you have to give me
Give me lovin' oh no, oh no
Now I'll never be the same again
I said I never say never
But ya got me flippin', flippin' up
Oh baby, why'd you have to give me
Give me lovin' oh no, oh no
Now I'll never be the same again
This is where your girl start acting crazy
This is what you hear on the radio
This is why I'm stressin', creepin', stalking
Steady checkin' who you talkin' to, I really didn't get it before
But you flip the script look what you did to me
Flip the script, baby you killin' me
Flip the script
And I'll never be the same again, yeah, yeah
'Cuz you flip my script, look what you did to me
Flip the script, baby you killin' me
Flip the script
And I'll never be the same again, yeah, yeah
This where your girl start acting crazy
This is what you hear on the radio
