

Amerikaz Nightmare

Mobb Deep

Yea, Amerikaz motherfuckin' nightmare bitch They wanna know, where the hood at, nigga we right here

Live in the flesh, with the Tec's and never scared

Them guns we holdin', claustrophobic, we'll let 'em air

Dump dump, reloaded Amerikaz nightmare They wanna know, where the hood at, nigga we right here

Live in the flesh with the Tec's and never scared

Them guns we holdin', claustrophobic, we'll let 'em air

Dump dump, reloaded the Amerikaz nightmare Dogs, I think smarter, reach harder

Slugs travel much farther

Nigga stompin' a Timberland wearing, face carver

With the box cutter, top gutter I'll hover over you lames, run for cover, into your brain yea

You did your thang but, not very good

And by the, looks of things, you can't come back to the hood

This is not a good look for you my nigga What's really poppin', inquiren' minds wanna know

How you rockin' them, new guns, we cope those

In bulk, like we bought 'em in Cosco's

Don't get yaself murked, wet shirt Said it first, hurry this that red alert

You ain't gotta get bucked to know that this led'll hurt

The sight of my hammer, gotcha heart pumping

Nerves twitching, eyes jumping, heads will roll When the pound starts kicking

You be missing

Mom's will be wearing that yellow ribbon

While I'm somewhere in the Caimen islands, chillin, nigga They wanna know, where the hood at, nigga we right here

Live in the flesh, with the Tec's and never scared

Them guns we holdin', claustrophobic, we'll let 'em air

Dump dump, reloaded Amerikaz nightmare They wanna know, where the hood at, nigga we right here

Live in the flesh with the Tec's and never scared

Them guns we holdin', claustrophobic, we'll let 'em air

Dump dump, reloaded the Amerikaz nightmare Yo you know we keep them big thangs

That make dead people when we hit brains

It's a wrap for the sequel get yo whip sprayed Tho I rather hit you walkin', get yo shit shaved

Plus showered up, talkin' then we split, ey

Won't catch me gun smokin', have the cops think

It was drugs that provoke it while we rollin', ey Baby girl, I see you, can I get a taste of that thang

Heard its lethal in a good way

Just so you know I ain't the one that get yo clit ate

But hope you got a strong back, I'll make yo shit break

You'll be walking like a penguin for a few days Yo bitch, you know we got big cash

Money fallin' out our pockets, give you whiplash

When we drive past your projects, ain't nobody can stop us
Infamous they can't stop us, they want our spot
Yo fall back nigga we got this They wanna know, where the hood at, nigga we right here
Live in the flesh, with the Tec's and never scared
Them guns we holdin, claustrophobic, we'll let 'em air
Dump dump, reloaded Amerikaz nightmare They wanna know, where the hood at, nigga we right here
Live in the flesh with the Tec's and never scared
Them guns we holdin', claustrophobic, we'll let 'em air
Dump dump, reloaded the Amerikaz nightmare I got love for my niggaz, love for my niggaz
Love for my niggaz, got love for my niggaz
I bust slugs for my niggaz, slugs for my niggaz
Slugs for my niggaz, bust slugs for my niggaz Yo slugs touchin', medics will rush 'em
Jake dusting for prints, make shift, morgue made for you pricks
You know what stay on my hip, you know the hood that I rep
You know we dumpin' them clips, you in the valley of death Get comfortable nigga, you runnin' out of breath
Ya blood is spilling through the sealing of the necks
Floor or have you flood the cement
Outside somewhere on the streets, no longer in the flesh They wanna know, where the hood at, nigga we right
here
Live in the flesh, with the Tec's and never scared
Them guns we holdin, claustrophobic, we'll let 'em air
Dump dump, reloaded Amerikaz nightmare They wanna know, where the hood at, nigga we right here
Live in the flesh with the Tec's and never scared
Them guns we holdin', claustrophobic, we'll let 'em air
Dump dump, reloaded the Amerikaz nightmare
