

# Cold Turkey

## Sixty Acres

Cold turkey, you can't expect me to quit, do you baby?  
Cold turkey, feelings don't go away so easy  
Just a little more time and I swear I'll leave you alone  
But tonight I got this jones coming down  
It's 3 o'clock and I woke up with the shakes  
So I called you up for the remedy  
I know I woke ya, get on up I'm coming over  
And don't be acting like you don't remember me  
I want some of that good, good loving  
Like the kind that we used to making  
How I used to make you shake for hours after, yeah  
Now I don't know what you did to me  
You must've put something in my food  
'Cause baby you got me all caught up in the rapture, yeah  
I can't go  
Cold turkey, you can't expect me to quit, do you baby?  
Cold turkey, feelings don't go away so easy  
Just a little more time and I swear I'll leave you alone  
But tonight I got this jones coming down  
I'm finding out real quick, I just can't have anybody in my bedroom  
'Cause when I want it, it's got to be you right  
And though I threw away your number and I tried not to remember  
Got it locked inside my brain memorized, showing off  
Don't tell me that you don't recall all the fun that we used to have  
And how I used to make you laugh and cry sometimes sugar  
Now, I don't believe you when you say  
That you ain't really thinking about me  
'Cause baby girl you're steadily running through my mind  
And I can't, I can't go  
Cold turkey, you can't expect me to quit now baby  
Cold turkey, feelings don't go away so easy  
Just a little more time and I swear I'll leave you alone  
But tonight I got this jones coming down  
It keeps calling me right back, I keep thinking about the past  
I don't wanna be with nobody but you, no man  
I miss your rhythm and groove miss, don't know how you do it  
All I know is I'm addicted to your love  
And I can't go  
Cold turkey, you can't expect me to quit, do you baby?

Cold turkey, feelings don't go away so easy  
Just a little more time and I swear I'll leave you alone  
But tonight I got this jones coming down  
Understand what I'm saying  
Cold turkey, you can't expect me to quit now baby  
Cold turkey, feelings don't go away so easy  
Just a little more time and I swear I'll leave you alone  
But tonight I got this jones coming down, coming down  
Coming down, coming down, coming down, coming down
