Bloody Mary

Hello Sleepwalkers

I slept with Orange last night
Tonight, Lemon and Cointreau are sleeping next to me
Tomorrow, I will spend a night with sexy Bright Red, sexy Bright RedMake it stronger
'cause it's too much of a bother
You say no no no, but it's no longer any doubtLet's blend, blend blend
And then shake, shake, and shake
Every night, I become one with you
Take my bloody handLet's mix, mix mix
And then shake, shake, and shake
Every night, I become one with you
Take my bloody handLet's blend, blend blend
And then shake, shake, and shake
Every night, I become one with you
Take my bloody handHey, Bloody Mary
Shall we drink another one?I slept with Orange last night
Tonight, Lime and Vermouth are snuggling up to me
Tomorrow, I will spend a night with sexy Bright Red, sexy Bright Red (2x)Make it stronger
'cause it's too much of a bother
You say no no no, but it's no longer any doubtLet's blend, blend blend
And then shake, shake, and shake
Every night, I become one with you
Take my bloody handLet's mix, mix mix
And then shake, shake, and shake
Every night, I become one with you
Take my bloody handShall we drink another one?You're a white spider
Give me a kiss of fire
You're a roadrunner
Take me to a blizzard (2x)Let's blend, blend blend
And then shake, shake, and shake
Every night, I become one with you
Take my bloody handLet's mix, mix mix
And then shake, shake, and shake
Every night, I become one with you
Take my bloody handLet's blend, blend blend
And then shake, shake, and shake
Every night, I become one with you
Take my bloody handLet's mix, mix mix
And then shake, shake, and shake
Every night, I become one with you

Take my bloody handBloody Mary, shall we drink another one?
