

# I'm With Her

Rhett Miller

This is a girl on a different planet  
In a constellation faraway  
We are in love and you can't deny I'm with her  
Sha la la la  
Sha la la la  
I'm with her  
Sha la la la Livin' alone  
Livin' all alone in a black hole I call Hollywood  
Looking for love, that I could not find I had a dream that she would orbit around me  
Her heavenly body hovering  
We were in love and I closed my eyes Now I'm with her  
Sha la la la  
Sha la la la  
I'm with her  
Sha la la la I was underground  
I found a whole new world to put my troubles in  
You lived miles above the earth  
Until you came down to bring me home again Sha la la la  
Sha la la la  
I'm with her  
Sha la la la We will be wed and we will procreate  
And we will examine life on another plane  
And we are in love with the big blue sky I'm with her  
Sha la la la  
Sha la la la  
I'm with her  
Sha la la la I'm with her  
Sha la la la  
Sha la la la  
I'm with her  
Sha la la la
