

Push Comes to Shove

Aerosmith

[Chorus:]

Can you be in love

When you live alone

Push comes to shove

When you're bitchin' on Now look at every

I'm tonne on you without a doubt

Said the music does the talkin'

But all we heard is talk about The girls are left behind

When forty women all spend time

With me and the boys

And the toys, yeah Rose said she was fine for two

With blonde hair, by crack it

Miles of blue

Suze, she was on my side

'Cause she and Nancy

Ah they took me for a ride The girls are left behind

When forty women all spend time

With me and the boys

And they do, yeah the toys Talk about it

Walk about it

Talk about it

Talkabubi

Talk about it

Talk about it...

Dedumdudidudi [Chorus] She looked, well, about thirty five to me

When mine was still comin' on to you

But I was covered back, back then

'Cause me and the boys

Knew hot courier The girls are left behind

When forty women all spend time

With me and the boys

And the toys in the attic Her sister, she was lank and thin

Never thought I'd given in

Her candle of youth was burnin' low

But me and the boys

Knew something had to go The girls are left behind

When forty women all spend time

With me and the boys

Dededudidudu... Talk about it

Walk about it
Talk about it
Talkabubi
Talk about it
Talk about it...
Dedumdudidudi[Chorus x2]Huh![Chorus]
