Machine Man

Judas Priest

Advisory - the following lyrics contain explicit language:

Licensed to kill
My 650 Bonneville
"Hellfire" we yell
Fueled and indestructibleGet it down
Take the crown
Neon daze
RenegadesNo fear just hate
Drives us to the ultimate
Cut loose extremes
On our maniac machinesTake me down
Hit the ground
Neon nights
Speed of lightSo you motherfuckers
Want to race
You've all got loser tattooed
On your faceMachine man's running
You wanna try
Machine man's coming
You're gonna dieIgnite the engines
You can hear it scream
You're gonna eat ther words
That challenged this machineThe beast is revved up
The flag is down
The tyres screech
And lay a smoke screen all aroundThrough the limits
As they rocket past
It's a blood bath
There's no second placeMachine man, machine man's coming
Machine man, machine man's coming
Machine man, machine man's coming
Machine man, machine man's comingIce nerves of steel
As I notch another kill

You lose, I win
I get to ride againGet it down
Hit the ground
Neon nights
Speed of lightFeel no mercy
As I cross the line
Watch the suckers
Self destruct behindMachine man's running
You wanna try
Machine man's coming
You're gonna die
Machine man's running
You wanna try
Machine man's coming
You're gonna dieMachine man, machine man's coming
Machine man, machine man's coming
Machine man, machine man's coming
Machine man, machine man's coming
