

# Sweet Sixteen

## Howard Tate

When I first met you baby  
baby you were just sweet sixteen

When I first met you baby  
baby you was just sweet sixteen  
Just left your home then baby

the sweetest thing I'd ever seenBut you wouldn't do nothing for me baby

You wouldn't do anything I asked you to

You wouldn't do nothing for me baby

You wouldn't do anything I asked you to

You know you ran away from your home baby

And now you wanna run away from old me tooYou know I love you baby

I love you before I could call your name

You know, you know I loved you baby

Baby I loved you, I love you before I could call your name

It seems like everything I do now baby

Everything I do is in vainTreat me mean baby

But I'll keep on loving you just the same

Treat me mean baby

I'll keep on loving you just the same

But one of these days baby

You're gonna pay alot of money

Just to hear someone call my nameYes sweet sixteen baby... sweet sixteen... oh yes

The sweetest thing baby

Oh yese, the sweetest thing I ever seen

You know I'm having so much troublebaby

Baby I wonder

Yes I wonder

Baby I wonder

Oh, I wonder what in the world's gonna happen to meArtist Song Name Composer Composition Instrument
