Kick!

Adam and the Ants

See a nation on it's knees
And it's heritage dead
See a nation needing civilization
Just like a hole in the headOne race, today, one show, kickSo now you're trying it on me
But I'm aware of the plan
To save the man you have to kill the Indian
By simply shaking his handOne race, today, one show
One race, today, one show
One race, today, one show, kick
