

# Shining Star

Inxs

I got a plan  
Yeah you got a plan  
Gotta plan ahead  
I got a plan that'll make you a star  
Make you go rich make you go far  
Take a life and throw it on a bus  
Make you feel like you make a fuss  
Bright ideas and a fast feel too  
Make you feel like you gotta feel unglued  
Shining star, shining star  
Shining star yeah  
Take my soul, take my soul  
Take my soul, take my soul  
Just leave me with your heart  
Loving heart, loving heart  
Loving heart, loving heart  
Just leave me with your heart, shining star  
There you go  
Way up high  
Drove your mind and cheat your heart  
Make you wanna feel before it gets too hot  
Let them gun you down while you run around  
Before your shining star has gone  
Shining star, shining star  
Shining star yeah  
Shining star, shining star  
You're going too far shining star yeah  
Take my soul, take my soul, take my soul  
Just leave me with your heart  
Loving heart, loving heart  
Just leave me with your heart  
Shining star  
Shining star yeah, shining star  
Gimme your money honey  
Gimme your money honey  
Gimme your money honey  
Gimme your money honey  
Gimme your money honey  
Shining star

Shining star  
Shining star  
Shining star  
I got plans  
Yeah I got a plan  
Make you go rich  
Make you go far  
Shining star  
Shining star  
Shining star
