

Wink and a Smile

[Eric Martin](#)

I dug a comfortable hole
And silver lined it with the same old, same old
Mona Lisa put a spell on me
Gotta shake this lifeless tree
And get some peaches for the soul
Can't be so complicated
To fly without a net
Come on push me baby
I'll dream right off the edge
I need a wink and a smile
I need to sink my teeth into a sweet ball of fire
I need a wink and a smile
And seein' the sight of you
coming down the miracle mile for me
Bring back the long and slow kiss
Don Juan, The Mystery and The Age Of Innocence
Read between the faded lines
Put up a sea of neon signs
Till you can see just what I miss
Give me some new temptation
To shake me from the core
A cherry variation
Of what we had before
I need a wink and a smile
I need to sink my teeth into a sweet ball of fire
I need a wink and a smile
And seeing the sight of you
coming down the miracle mile for me
Baby the sight of you is all the medicine I'll never need
