

Oh Say Can You See

[Lana Del Rey](#)

Oh say can you see my stars
The nighttime is almost ours
To wander through alleys and look at the bars
Nighttime is almost ours
The headlights from passing cars
They illuminate my face then leave me in the dark

The voice of Nirvana says "come as you are"
And I will
The nighttime is almost ours
The sway of the hips and arms
Will cradle you from afar
They swing 'till you're tired and send you to Mars
Nighttime is almost ours
