

Always Be One

Night Terrors of 1927

Always be one
Always be, Always be
Always be one
Always be, Always be We jumped the curb
Follow the dirt path
Sun was blazin' on our backs
Never alone, couldn't be closer
The same all summer We were so alive
Our dreams had yet to die We were young, falling free
High enough to still believe
Crossed your heart, hope to die
Oh, we said we would survive
We will always be one
(Oh-oh-oh-oh-oh-oh)
We will always be one
(Oh-oh-oh-oh-oh-oh)
We will always be one Pedaling faster
The echo of laughter
Racing under the overpass
Had nothing to hide
We gave our innocence that night We were so alive
Our screams lit up the sky We were young, falling free
High enough to still believe
Crossed your heart, hope to die
Oh, we said we would survive
We will always be one
(Nothing really lasts forever) Oh we were young, falling free
High enough to still believe
Crossed your heart, hope to die
Oh we said we would survive
In worse or better
Nothing really lasts forever
That was then, We were young
But we'll always be one We'll always be one
We'll always be one
We'll always be one
We'll always be one
We'll always be one
We'll always be one

Oh we will always be one
