My Holiday (Save Me)

Denver Harbor

This is my holiday
It's ten-thousand miles
across these twenty-seven statesyour voice is echoing
your everywhere I go
and everyone I seeAnd you said
the world is out there waiting
and if you want it take it
you never said that it would be like this
or how much I miss yousave me
I don't wanna feel forsaken
I only wanna hear you say
that you're never gonna change
so why won't you save meprogress is killing me
I've lost all the faith
and i'm selling all the dreamsthis road will never change
it's everything I know and
it's everything you hatechorusanother day has left me broken
I only wanna hear you say
that you're never gonna change
So won't you save mesave me
I can't take this
and i'm miles from home
but I need to knowcan you save me
I don't wanna feel forsaken
I only wanna hear you say
that you're never gonna change
so won't you save me
another day has left me broken
I only wanna hear you say
that you're never gonna change
I wanna hear you say
you're never gonna changeYou know I only wanna hear you say
Come home
