She's a Natural

Shenandoah

Shes a beauty, the kind of beauty make-up cant create
'Cause it starts within her heart and flows throughout her soul
With a genuine reflection on her faceShes a lady, and she doesnt have to prove it to the world
Theres kindness in her eyes and wisdom in her words
And in her heart sometimes a little girlShes a natural and it isnt hard to see
Though Im not quite sure just what she sees in me
But God in all his kindness gave her sweet sweet love to me
And as long as I have life, Im going to love her, naturallyShes a rare thing, a treasure most men seek but seldom find
A priceless work of art from the hands of the maker
That only grows more valuable with timeShes an angel, the nearest thing to heaven that I have found
She eases all my burdons, she takes me high above it
And still she keeps my feet right on the groundShes a natural and it isnt hard to see
Though Im not quite sure just what she sees in me
But god in all his kindness gave her sweet sweet love to me
And as long as I have life, Im going to love her, naturallyOh, shes a natural
