The Ugly

Sumo Cyco

Ladies and Gentleman
Boys and girls and creatures of all shapes and sizes
We proudly welcome you to The Sumo Cyco showWatch out behind you there's a Monster in the closet
Do you open or do you lock it?
There's a tiger with a temptress
Will your weakness outrun your fear?Rain washes away your guilt in the spring
Cause you kill like the Devil's on your side
Can't live by the rules of the sword
When a gun's to your head
And there's dirt thrown in your eyesI hear you callin' out to me
I hear you callin' me
I hear you callin' out to me
The truth is uglyAre you gonna be the villain in the story?
Say you won't say you won't
Say you won't now (say you won't)
Are you gonna be the villain in the story?
Say you won't say you won't say you won'tI see terror in the mirror
Do you fear her or be a savior?
Not to mention in this dimension, are we an invention?
Is it all in your mind?Rain washes away your guilt in the spring
Cause you kill like the Devil's on your side
Can't live by the rules of the sword
When a gun's to your head
And there's dirt thrown in your eyesI hear you callin' out to me
I hear you callin' me
I hear you callin' out to me
The truth is uglyAre you gonna be the villain in the story?
Say you won't say you won't
Say you won't now (say you won't)
Are you gonna be the villain in the story?
Say you won't say you won't say you won'tYou can tie me up
You can hold me down
You can try you ain't gonna get my crown
Are you gonna be the villain in the story?
Say you won't say you won't
Say you won'tDream, dream
Lullabies aren't what they seem
Seems like all I can do it

ScreamBecause everyday is a sacrifice
So just slice me in half with a butchers knife
Never get it right it's the reason why
I can't feel it can't feel it I'm paralyzed
Every moment postponed it another life
And I'm terrified, petrified of my lies
Always justified, faking to get by and you're just hyponotized
By my disguise open your eyes
Open your eyes
Open yourAre you gonna be the villain in the story?
Say you won't say you won't
Say you won't now (say you won't)
Are you gonna be the villain in the story?
Say you won't say you won't say you won'tYou can tie me up
You can hold me down
You can try you ain't gonna get my crown
Are you gonna be the villain in the story?
Say you won't say you won't
Say you won't
