

Light Between the Leaves

Wilson

Can you see this light between us
Keeps me breathing through the storm
My head above the crowd Can you see this light between us
So come a little bit closer now
Its in our eyes You and me, we're just believers
Believing what we hold
But sometimes we fall to pieces
In the dusk So we should dance like this forever
We're safer on the ground
When a million lights surround you
And you're moving to the sound
Don't waste another moment
It's waiting for you now
So dive in this new begining
Let the glowing show you how I will take, this light between us
Keeps me breathing through the storm
My head above the crowd Can you see this light between us
So come a little bit closer now
Its in our eyes We'll take a ride out side together
The streets are lined with gold
Where the good become the wanted
not the soul Don't waste another moment
I'm waiting for you now
So dive in this new begining
And let the colour show you how
I will take, this light between us
Keeps me breathing through the storm
My head above the crowd Can you see this light between us
So come a little bit closer now
Its in our eyes
Its in our eyes So dive in this new begining
And let the colour show you how I will take, this light between us
Keeps me breathing through the storm
My head above the crowd Can you see this light between us
So come a little bit closer now
Its in our eyes
Its in our eyes Its in our eyes
