

# Living in Satellites

## The Ganjas

Living in satellites

Only you breaking my time,  
All I do is spining inside the fire

Oh you, taking my mind  
All I do is living in satellites,  
Is living in satellites.

Only you lateing my heart  
All I do is living inside the fire  
Keep on trying to searching,  
Thinking about the real thing  
All you say about this  
Living in satellites

Now the stars are sinking  
And you're moving around the scene  
All you say about this  
Living in satellites
