

# Kinda Fuzzy

## Eels

In my heart there lives a little riddle  
I'm always trying to find my way  
Everything is older in the morning  
I'll find an answer someday But I'm feeling kinda fuzzy  
But you know I'm alright  
I'm feeling kinda fuzzy  
But the sunshine and bright  
Don't mess with me  
I'm up for the fight It's a tangle cob web that I weave  
The dusty room over naked mind  
Anything that keeps the sun rising  
I gotta see if I can find But I'm feeling kinda fuzzy  
But you know I'm alright  
I'm feeling kinda fuzzy  
But the future looks bright  
Don't mess with me  
I'm up for the fight Riding through like an outlaw drifter  
Never knowing which way to turn  
In the morning I think I got it  
It's gone Pull the curtains open wide  
Gotta know that I'm about it  
Good god it's never dead don't never doubt it  
Yo I'm alright, I'm feeling kinda fuzzy In my heart there lives a little riddle  
I'm always trying to find my way  
I don't know what it's gonna take me  
I only need a little break man  
I know you know that I'm a good man But I'm feeling kinda fuzzy  
But you know I'm alright  
I'm feeling kinda fuzzy  
But the future looks bright  
Don't mess with me
