## The Comeback

## **Shout Out Louds**

I'm kind of tired 'Cause you wouldn't let me sleep last night I'm a reasonable man But I can't believe what's on your mindAnd the past three weeks Were the saddest weeks And the words you said Oh, they made me weakI'm out of my mind I'm about to crack So let's call this the comebackI've been pushed around And I'm not gonna get pushed this time The time is mine But I can't believe what's on your mindAnd the past three weeks Were the saddest weeks And the words you said Oh, they made me weakI'm out of my mind I'm about to crack So let's call this the comebackLet's call this the comeback, again Let's call this the comeback Let's call this the comeback, again Let's call this the comebackLet's call this the comeback The comeback, the comeback Let's call this the comeback, the comeback Let's call this the comeback
