Advisory - the following lyrics contain explicit language:

Hey Wendell, where are you now?  
I searched online but nothing found  
I wonder what you done  
And what you become Wendell, you were the first for me?  
We were both stoned and seventeen  
After our date at the Denny's  
We got it on, we got it on It didn't last too long Hey Robin, I typed in your name  
Nothing came up, so I'm afraid  
I'll never know exactly why you broke up with me  
But it turned out okay Met someone else on that same day  
Her name was Jenny and I wrote her that song  
Didn't last too long  
And the list goes on These are some of the people that I  
(Some of the people)  
I went out with before I met you  
These are some of the people that I  
(Some of the people)  
Thought would be the one, oh Oh Billy, my, how you've changed  
You lost your hair and gained that weight  
I wonder if I  
Look that bad too Have you kept up with my career?  
Do you still wish that you were near?  
I hope that you regret  
You fucked my best friend, Marilyn, Marilyn These are some of the people that I  
(Some of the people)  
I went out with before I met you  
These are some of the people that I  
(Some of the people)  
Thought would be the one, oh Hey Alex, now what do I do?  
Went on Classmates and I found you  
Do I pay extra for your address and phone?  
No, I leave it alone I got a new love in my life

I think that this one could be right  
If not, I'll add another verse to this song  
And the list goes on These are some of the people that I  
(Some of the people)  
I went out with before I met you  
These are some of the people that I  
(Some of the people)  
Thought would be the one These are some of the people that I  
(Some of the people)  
Thought would last and make me happy  
These are some of the people that I  
(Some of the people)  
Thought would be the one  
Oh Hey Wendell, where are you now?  
Hey Wendell, where are you now?
