

Maybe That's All It Takes

[Don Williams](#)

I'll love you forever and a day that's what the love songs like to say
In love it seems life is but a dream when we started out it felt that way
But it didn't take us very long to find out the world is not a song
Life gets blue and love does too you learn to forgive and just go on
Maybe that's all it takes just lettin' go of the old mistakes
Holdin' on tight to the love we make maybe that's all it takes

[piano]

We've done our share of slamming doors and wondering what we're together for
Yes we've been through a tear or two and for every tear I'll love you more
And maybe that's all it takes...
Maybe that's all it takes...
