

Never Look Away

Building 429

The water rages on tonight
And the storm is hiding the skyline
I try to see the northern shore
But the waves are much higher than before
From the deep Lord
You are, You're beckoning, yeah yeah
You call out my name, say, "Don't be afraid
'Cause I, I'm here, just believe me"
So I won't look at the waves, I'll look on Your face
And I, I'll walk when I see You
Lord, give me faith to never look away
Staring deep into Your eyes
I'm standing by Your strength
But fear and doubt, they take my sight
And I begin to sink
Hear my plea, Lord, will You
Come rescue me, yeah
You call out my name, say, "Don't be afraid
'Cause I, I'm here, just believe me"
So I won't look at the waves, I'll look on Your face
And I, I'll walk when I see You
Lord, give me faith to never look away
It's not that far to where You are
With outstretched arms, You're calling out my name
I'm gonna walk, I'm gonna fall
But You'll have my all
You've called me by name and I'm not afraid
I'm here, I believe You
I won't look at the waves, I'll look on Your face
And I, I'll walk when I see You
You've called me by name and I'm not afraid
I'm here, I believe You
I won't look at the waves, I'll look on Your face
And I, I'll walk when I see You
Lord, give me faith to never look away
Aah Aah Never Look, never look away
Lord, give me faith, to never look away
Oh no, never look, never look away
