

# Up the Cuts (Acoustic)

## Against Me!

I can't sleep  
Dry red eyes wide open  
Starin' at the white stucco ceiling  
Turn on the TV  
Watch music on television  
Have I heard this song before, did this already happen?  
Derived influence  
In style of dress  
Similar trends in camera technique and editing  
Sync up the cuts (sync up the cuts)  
To the bass drum kick (to the bass drum kick)  
All the taste-makers drinking from the same glass  
Is there anybody thinking what I am?  
Is there anybody thinking what I am?  
Are you restless like me?  
Are you restless like me?  
Are you restless like me?  
And all the insiders rumor  
About a decline in sales  
All the buzz is happening in the new digital market place  
FBI warning  
Printed on the flip side  
Under penalty of law piracy will be prosecuted  
And in MRR (and in MRR)  
Someone asks the question (someone asks the question)  
With the instant availability of information  
And content so easily obtainable  
Is the culture now a product that's disposable?  
Are the punks still singing the same song?  
Is there anybody thinking what I am?  
Is there any other alternative at all?  
Are you restless like me?  
Are you restless like me?  
Are you restless like me  
Like me?
