Arizona

Hey Monday

It took two days
For me to figure out
This isn't working out
But I lost my way
I drove all night
Just to be with you
But you weren't worth the view
I gotta hit the brakes
Now you know
Get up and go
Arizona, Arizona
A car wreck on the highway
Now you're burning
By the side of the road
Arizona, Arizona
Is a million miles from Florida
Now you're history
I'm stranded, get me out, I'm going home
Deep in your soul
Lies a lonely heart
That only ever pumps
For you alone
And I can't relate
So I gotta leave you here
I can breathe without you, dear
Just start walking away
Now you know
Get up and go
Arizona, Arizona
A car wreck on the highway
Now you're burning
By the side of the road
Arizona, Arizona
Is a million miles from Florida
Now you're history
I'm stranded, get me out, I'm going home
Tell me, how does that feel
With the Grand Canyon
Between me and you

Tell me, how does that feel
To see me waving goodbye
Took two days
For me to figure out
This isn't working out
I gotta hit the brakes
Arizona, Arizona
A car wreck on the highway
Now you're burning
By the side of the road
Arizona, Arizona
Is a million miles from Florida
Now you're history
I'm stranded, get me out, I'm going home
Arizona, Arizona
A car wreck on the highway
Now you're burning
By the side of the road
Arizona, Arizona
Is a million miles from Florida
Now you're history
I'm stranded, get me out, I'm going home
