

Put Your Head Out

House Of Pain

I rip shit like a bow when I flow
When I score points with the joints that I throw
'Cause I flow deadly I'm no punk see
I break backs, make tracks and get funky
There's now where to run to 'cause nobody cares
MC's drop to your knees say your prayers
The luck of the Irish is about to kick in
Prepare to die and notify your next of kin
I'm goin' all out, buck, duck and call out
That's how I'm livin, punk you better call out
This is the house of pain
(Pain)
To come inside is insane
I'll put your head out
(I'll put your head out)
I'll put your head out
(I'll put your head out)
Jump up spread out
I'll put your head out
I'll put your head out
Put put your head out
Jump up spread out
I'll put your head out
Hey what up punk, punk?
(I'll put your head out)
Who steps the booze
When the hoods wanna take a cruise
They're feelin' the effects of the booze
Ain't no clues to hold with them fools
Who got smoked even though they scrat crews
You got bruise but I got the booma'
Trigger to blast ya askin' the bull
Take my life shit I'll take you to school
In the do what's the difference if your think of droppin' jews
Carbon copy think you're so cool
Stop dreamin' and hallucinatin'
You're caught up in a piece of pain
Clip clip, punk

Now you're thinkin' oh shit

Quit while you're ahead
Before I fill you full of lead

I'll put your head out

(Put your head out)

I'll put your head out

(Put your head out)

Jump up spread out

I'll put your head out

I'll put your head out

Put put your head out

Jump up spread out

I'll put your head out

Blessed with the gift, and gifts with the rhyme

I never say quit when I'm out to get mine

It's live and let die, sit back and get high

Smokin' a fat blunt, waitin' for some punk

To act up like he's got somethin' in him

Then I grab the mike and start spittin' out venom

Coughin' up headstones, blowin' out headphones

Steppin' to me, you'll wind up in the dead zone

It's nothin' personal, that's how it goes, G

Step up with beef, and you'll wind up losin' teeth

'Cause I don't give up the mike that easy

Step back, this ain't government cheese, G

You can stand in line

But you ain't gettin' it

Talk all the shit you want

But I ain't sweatin' it

I'll put your head out

(I'll put your head out)

I'll put your head out

(I'll put your head out)

Jump up spread out

I'll put your head out

I'll put your head out

Put put your head out

Jump up spread out

I'll put your head out
