Nightclubbing

Navigators

I can be who you want me to be uh huh-ow
Take a chance on a new enemy uh huh-ow uh huh-ow
Something different than you felt before
But you'll know it when you taste it
In the absence of light it's a flash in the night
Something that you can feel but it's always burnin'
Put on your best dress and make up your face
We're going nightclubbing we're going night clubbing
Get off your high horse and powder your nose
We're going nightclubbing nightclubbing
There's a place out on Avenue A uh huh-ow
Where the kids got a new remedy uh huh-ow uh huh-ow
Just a little bit to leave yourself for a temporary exile
It's a shortness of breath it's a glow in your chest
Something better than real that's always turnin'
Put on your best dress and make up your face
We're going nightclubbing we're going night clubbing
Get off your high horse and powder your nose
We're going nightclubbing nightclubbing
Check all your hang ups and lead at the door

We're going nightclubbing we're going night clubbing
Quit all your bitchin' and get on the floor
We're going nightclubbing nightclubbing
Oh oh oh oh oh oh oh
Oh oh oh oh oh oh oh
East side (unknown)
(I don't know what the hell he is saying)
I got to know baby
When you see me don't (unknown)
I got to know baby
Sing along
Put on your best dress and make up your face
We're going nightclubbing we're going night clubbing
Get off your high horse and powder your nose
We're going nightclubbing nightclubbing
Check all your hang ups and lead at the door
We're going nightclubbing we're going night clubbing
Quit all your bitchin' and get on the floor

We're going nightclubbing nightclubbing
(More Griffinese not a clue)
