Pacify

Lola's Riot

[Verse 1]
Behind the curtain shines the truth
My only thought will be my doom
So sane I cannot comprehend
I'll fake that smile, I'll stay until the end

[Verse 2]
Shivering hands they know the truth
They fear the pain of leaving you
I am too weak, I cannot stand
The walking through these cloudy lands

[Chorus]
And we set
Fire to the world
Its crumbling down as we talk
Where are your thoughts?
Where are you now?
You'll be forgotten when I'm gone

[Verse 3]
Lighting breaks the ground in two
No, I will not follow you
The storm rages inside my head
Am I alive or am I dead?

[Chorus]
And we set
Fire to the world
We watched it slowly burning down
Where are your thoughts?
Where are you now?
You'll be forgotten when I'm gone

And we set
Fire to the world
We watched it slowly burning down
Where are your thoughts?
Where are you now?

You'll be forgotten when I'm gone

[Instrumental Outro]
