When You Cry

Fly Project

Heaven knows you're with me now
Heaven knows that you're here
I feel your breath all around me now
And all the pain just disappears
It goes away, it goes away
And it only hurts, when you cry
I'm alone inside, when there's tears in your eyes
I can't hide and say I'm fine
But it only hurts, when you cry
You carry too much on your shoulders
I can't wait till you let me down
Cause the only thing we're getting is older
This time never comes back around
You just gave it, gave it away

And it only hurts, when you cry
I'm alone inside, when there's tears in your eyes
I can't hide and say I'm fine
But it only hurts, when you cry
When you cry
Heaven knows you're with me now
And I'll do my best to hold on
Cause nothing is worth all this fighting now
And I won't give up till it's gone
Make it go away, go away
Make it go away, go away
Cause it only hurts, when you cry
I'm alone inside, when there's tears in your eyes
I can't hide and say I'm fine
But it only hurts, when you cry
