Departure (Radio Edit)

Until Rain

Now inside the night,
It takes its time boy
And there,
Sits a man by the shore
Blind he was
He waits for you
Another dayYou think you can live forever
Being young you say that all
Youve got your Dreamworld ticket
Ahead theres another worldScared now,
She ran away from home
That night
She stared upon her mirrors glowYou believed in the dream
You have now the key
And when the dark night falls
You have to sleep with meYou have to walk each path and free your mind
Notice that,
You leave your flesh behind
No one else
Just you and I
See that light?
Its your Departure nightYou now mark my words
There are rules you learn
If you break them once
You return back home
Where youll weep each night
For what youve lost
The reality of illusion
The mist is all now gone you see
Touch the mirror glass you feel
And youll be gone
Welcome sonSearching your dreams
You discovered the world
Open your eyes
You have just found the door
Dont stand in the cold
Stay at my sideTogether we sail
On the edge of this tale
Wrapped in a way

That I dare not escapeFollow me, through this lane
Behold, the gates to the ReignSearching your dreams
You discovered the world.
Open your eyes
You have just found the door
And given your word
You may walk inside
